

MISSION STATEMENT

Through PIE-FDL, schools and businesses will partner to enhance a diverse educational experience that helps guide the development of our children into productive and involved citizens of our community.

These partnerships have been invaluable to the Fond du Lac School District on a variety of levels. As we work to enhance and expand the channels of communication between our schools and the community that the schools serve, the partner relationships have been instrumental in opening the doors to a wealth of possibilities.

Dr. Greg Maass
Superintendent of Schools

US BANK & CHEGWIN ELEMENTARY SCHOOL

NATIONAL EXCHANGE BANK & PIER ELEMENTARY SCHOOL

MERCURY MARINE & FOND DU LAC HIGH SCHOOL

CITIZENS FIRST CREDIT UNION & PARKSIDE ELEMENTARY SCHOOL

AMERICAN BANK & ROSENOW ELEMENTARY SCHOOL

PARTNERS

PARTNERS IN EDUCATION

PARTNERS

A partnership is a mutually beneficial arrangement between a business, agency or organization and a school or school district, in which the partners exchange ideas and information and commit to specific goals and activities intended to benefit students.

EDUCATION

- Career awareness
- Classroom enhancement
- Coordination of special events/projects
 - Guest speakers
 - Job shadowing
 - Mentoring
 - Scholarships
- Staff development
 - Tutoring

PARTNERS IN EDUCATION is a program seeking the involvement of local businesses, community agencies, higher education institutions, and parent organizations to work in conjunction with Fond du Lac schools to foster a better understanding of public education, its achievements and challenges, as well as provide expanded educational resources for our children.

BENEFITS OF PARTNERS IN EDUCATION TO THE BUSINESS, SCHOOL AND COMMUNITY

OPPORTUNITIES FOR BUSINESSES OR ORGANIZATIONS TO:

- Become partners in the educational development of youth.
- Present firsthand the requirements, satisfactions and expectations of the business world.
- Alert teachers to the job skills applicants need and help them find ways to develop these skills.
- Help develop career awareness geared to specific local job-market needs both now and in the future.
- Gain understanding of the school system.
- Assist in the educational development of the next generation of employees.
- Become known as a community-involved company which adds to your public relations efforts.

OPPORTUNITIES FOR EDUCATORS AND STUDENTS TO:

- Gain expertise and technical assistance that can help provide a more complete education for students or management skills for teachers and administrators.
- Become aware of business resources, complexities, constraints and concerns.
- Provide adult role models with expertise in specialized areas that are not traditionally available in the classroom.
- Acquire assistance in meeting other special needs beyond the resources of the school.
- Increase student motivation to improve attendance and discipline and decrease the dropout rate.
- Increase motivation of students to learn more effectively and increase awareness of career opportunities.
- Improved community image of public education.

OPPORTUNITIES FOR THE COMMUNITY:

- Increased communication among citizens
- Strengthened school system
- Educated citizenry
- Well-trained work force and improved economic development
- Involvement in public education

“Mercury Marine is proud to be partnered with Fondy High. We believe that partnering the largest employer in Fond du Lac County with the largest high school in Wisconsin provides tremendous opportunity for growth and learning in a symbiotic relationship.”

Dennis Rooney
VICE PRESIDENT - HUMAN RESOURCES, MERCURY MARINE
